L'essenza della pietra come non si è mai vista prima...

Un nuovo viaggio nella Quintessenza di Cerdamus ci conduce alla scoperta di atmosfere raffinate e caratterizzate da un'essenziale bellezza.

Un excursus nella progettazione internazionale e nel mondo dell'architettura con nuove nuance.

Ambientazioni sofisticate, superfici impreziosite da venature sottili, tracce impercettibili di luci che si insinuano e corrono impalpabili.

A tutto questo si aggiungono i mosaici, effetti particolari e unici che ancora una volta restituiscono al prodotto il valore della ricerca formale, estetica e produttiva.

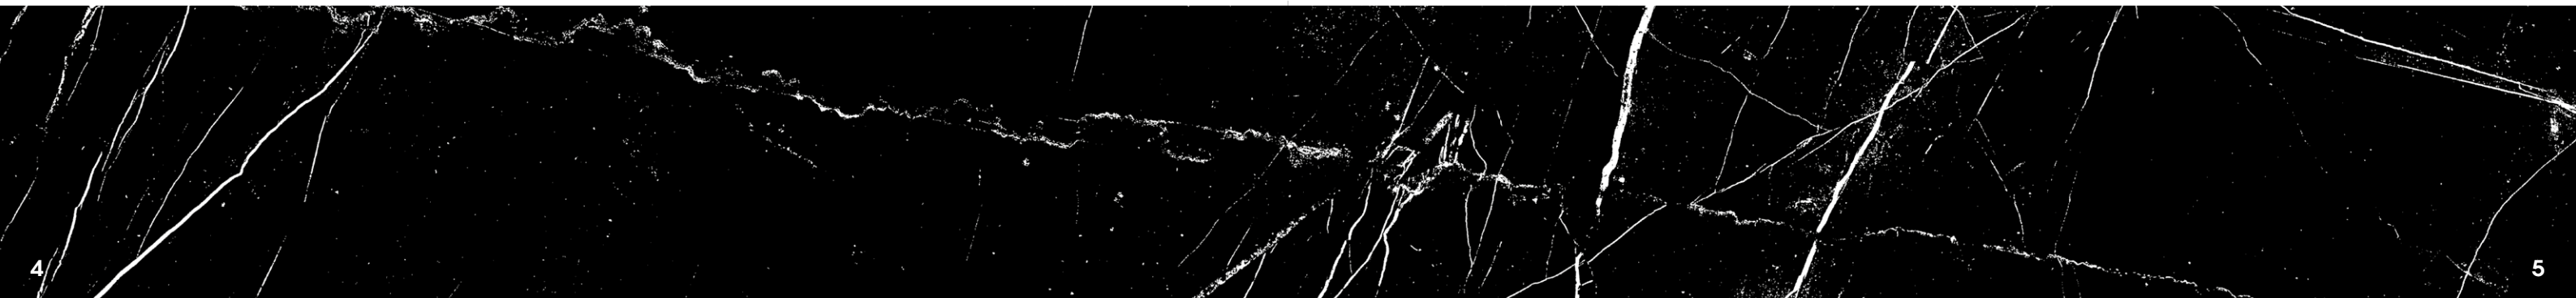

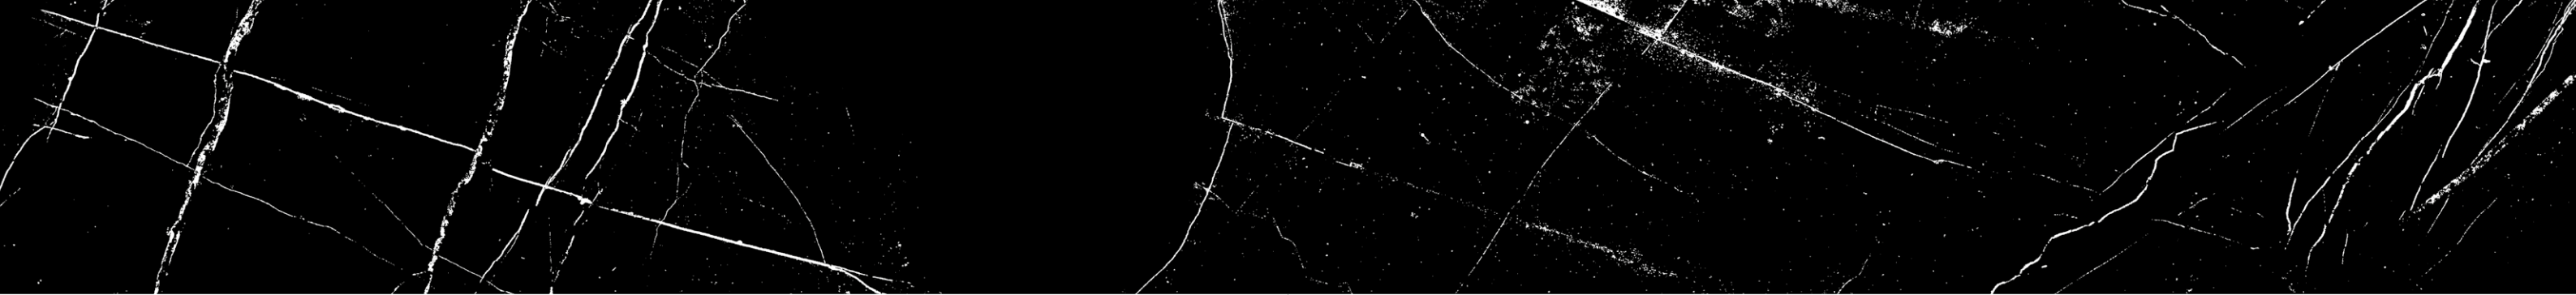

Cinque colori, sei formati, superfici naturali e satinate, elementi decorativi offrono ampie possibilità progettuali. Lo spunto per creare ambienti eleganti ma creativi.

Uno spazio di creatività in mezzo alla neutralità, qualcosa che si avverte appena, un cenno che sembra spezzare la perfezione ma che, semmai, è un nuovo linguaggio che contiene tutto.

Pulpis appartiene alla nuova categoria Quintessenza di Cerdamus, una classe di prodotti di alta gamma, concepiti dopo un lungo lavoro di ricerca dal punto di vista estetico ed ottenuti attraverso innovativi processi produttivi. Le collezioni contenute in Quintessenza guardano al mondo della progettazione, agli stili dell'architettura contemporanea ma anche ad una clientela esigente ed attenta all'originalità e all'eleganza.

Design Collection

PULPIS

The essence of stone as you have never seen it before...

A new journey into the Quintessenza of Cerdomus that leads to discover refined atmospheres with essential beauty.

An excursus on international design and the world of architecture with a new twist.

Sophisticated interiors, surfaces enriched by subtle streaks, imperceptible traces of light that seep in and run through intangibly.

And besides, there are mosaics- special and unique effects that once again restore the product the value of formal research, both in style and manufacture.

Five colours, six formats, natural and satin-finished surfaces. Decoration elements that offer a wide range of design solutions. A stimulus to create elegant yet original environments.

Creativity amid neutrality. Some things that are almost perceptible, a sign that seems to break perfection but that, if anything, is a new language that comprises everything.

Pulpis belongs to our Quintessenza new range of luxury tiles, designed to the highest aesthetic standards and made using innovative production methods. The collections in the Quintessenza range target the worlds of interior design and contemporary architecture - and discerning clients who appreciate originality and elegance.

L'essence de la pierre comme vous ne l'avez jamais vue...

Un nouveau voyage dans la Quintessenza de Cerdomus qui nous conduit à la découverte d'atmosphères raffinées qui se caractérisent par leur beauté essentielle.

Une excursion dans le design international et dans l'univers de l'architecture avec de nouvelles nuances.

Ambiances sophistiquées, surfaces rehaussées de subtiles nervures, traces imperceptibles de lumières qui s'infiltrant et s'écoulent, insaisissables.

Les mosaïques complètent le tableau, avec des effets particuliers et uniques qui restituent encore une fois au produit la valeur de la recherche formelle esthétique et productive.

Cinq couleurs, six formats, des surfaces naturelles et satinées, des éléments décoratifs qui offrent de nombreuses possibilités de design. Une opportunité unique pour créer des ambiances à la fois élégantes et créatives.

Un espace de créativité dans un décor de neutralité, un détail que l'on remarque à peine, un signe qui semble casser la perfection mais qui au contraire devient un nouveau langage qui permet de tout exprimer.

Pulpis fait partie de la nouvelle catégorie Quintessenza de Cerdomus, une classe de produits haut de gamme, conçus après un long travail de recherche esthétique, et obtenus à travers des procédés de fabrication innovants. Les collections de la gamme Quintessenza s'inspirent du monde du design, des styles architecturaux modernes, mais également des exigences d'une clientèle en attente d'originalité et d'élégance.

**La esencia de la piedra como nunca
antes se la vio...**

Un nuevo viaje a la Quintessenza de Cerdomus nos lleva a descubrir atmósferas refinadas y caracterizadas por una belleza esencial.

Una excursión a la proyección internacional y al mundo de la arquitectura con nuevos matices.

Ambientaciones sofisticadas, superficies enriquecidas con finas vetas, huellas imperceptibles de luces que se insinúan y corren de manera impalpable.

A todo esto se añaden los mosaicos, efectos particulares y únicos que una vez más devuelven al producto el valor de la búsqueda formal, estética y productiva.

Cinco colores, seis formatos, superficies naturales y satinadas, elementos decorativos que ofrecen amplias posibilidades de diseño.

El punto de partida para crear ambientes elegantes pero creativos a la vez.

Un espacio de creatividad en medio de la neutralidad, algo que apenas se advierte, un gesto que parece dividir la perfección pero que, en todo caso, es un nuevo lenguaje que logra abarcar todo.

Pulpis forma parte de la nueva categoría Quintessenza de Cerdomus, una clase de productos de alta gama, concebidos tras un largo trabajo de investigación desde el punto de vista estético y obtenidos a través de innovadores procesos de producción. Las colecciones que forman parte de Quintessenza no solo se inspiran en el mundo del diseño y los estilos de la arquitectura contemporánea sino también en una clientela exigente y atenta a la originalidad y a la elegancia.

Die Essenz des Steins in einer völlig neuen Version...

Eine neue Reise durch die Kollektion Quintessenza von Cerdamus führt zur Entdeckung subtiler Umgebungen, charakterisiert von essentieller Schönheit.

Ein Exkurs in die internationale Projektentwicklung und in die Welt der Architektur mit neuen Nuancen.

Raffinierte Anpassungen, mit feinen Maserungen verzierte Oberflächen sowie unmerkliche Lichtspuren, die sich mischen und kaum wahrnehmbar weiterlaufen.

Zu alledem kommen Mosaik sowie spezielle und einzigartige Effekte hinzu, die dem Produkt ein weiteres Mal den Wert des Experimentierens mit Formen, Ästhetik und Produktion zurückgeben.

Fünf Farben, sechs Formate, natürliche und satinierte Oberflächen sowie Dekorationselemente ermöglichen große Planungsfreiheit. Der Ansatz, um elegante, jedoch kreative Räume zu schaffen.

Ein kreativer Raum inmitten von Neutralität, etwas Spürbares, ein Hinweis, der die Perfektion zu durchbrechen scheint, der aber höchstens eine neue Sprache ist, die alles beinhaltet.

Pulpis ist ein Bestandteil der neuen Linie Quintessenza von Cerdamus, einer ausgezeichneten Produktserie, die nach langer Forschung im Hinblick auf Ästhetik entstand und mittels innovativer Produktionsprozesse hergestellt wird. Die einzelnen Kollektionen, die Teil von Quintessenza sind, stehen für die Welt der Planung, für die Stile der zeitgenössischen Architektur sowie für Kunden, die hohe Ansprüche an Originalität und Eleganz stellen.

Суть невиданного камня...

Новое путешествие в мир Quintessenza от Cerdomus приводит нас к открытию изысканной атмосферы, отмеченной скромной красотой.

Экскурс в мир проектирования и архитектуры, обогащенный новыми элементами.

Современный дизайн, поверхности, украшенные тонким прожилками, тонкая игра всепроникающего и вездесущего неуловимого света.

Ко всему этому прибщается мозаика, специальные уникальные эффекты, которые еще раз возвращают смысл поиска стилистического, эстетического и творческого начала.

Пять оттенков, шесть форматов, натуральные сатинированные поверхности, декоративные элементы открывают широкие проектные возможности. Вдохновение для создания стильных и творческих пространств.

Творческий элемент в нейтральной атмосфере, едва уловимый: штрих, который, кажется, нарушает гармонию, но который, тем не менее, представляет новый язык, выражающий все.

Pulpis относится к новой категории Quintessenza от Cerdomus, типу изделий высочайшего класса, созданных после продолжительных поисков с точки зрения эстетики и полученных с использованием новейших производственных технологий. Коллекция категории Quintessenza создана для мира дизайна, современных архитектурных стилей, а также для требовательных заказчиков, ищущих оригинальность и элегантность.
